Campbell Interurban Press

VOLUME 21, No. 15 — CAMPBELL, SANTA CLARA COUNTY, CALIFORNIA — FRIDAY, OCTOBER 15, 1915

The family of the "Rubiacea" to which the genus Coffee belongs is one of the largest and most varied of the plant families.

The blossoms are starry flowers borne on short stems, pure white and slightly resemble a single tuberose. After the flowers, come little green fruits which in six or seven months develop into red coffee beans.

The yield varies greatly from 200 lbs. per acre to 17 lbs. per tree.

But everybody likes a good cup of Coffee. That is what you will have when you try some of our Banquet Blend at 35c or 3lbs. for $1.00.

Banquet Tea: Japan, English Breakfast. Celon, 25c and 50c packages.

FARMERS UNION BRANCH

Disease is bad,
Death is worse:
Ich ka bibble—"Safety First."

Do you know that milk is one of the cheapest as well as the best foods for human consumption?—But mind you it *must* be *pure milk*—dirty milk is costly at any price.

Look here, Mr. Orchardist,

that crop has cost you a whole lot of anxiety. Your weather eye has been watchful day and night, fearing for its safety.

And now that it's safely harvested, are you going to let up on your vigilance? How about the safety of the proceeds?

When you harvest your dollar crop, store it in this bank.

Then you may rest assured it is absolutely secure.

You should see that "Rosepoint Initial" stationery at Smith's. It makes a most acceptable gift.

Remember the date of the first number of Epworth League Course of Entertainment, October 29. Be there.

Nuttin' Doin' at the Birthday Social this Friday evening, or rather a Nutting party will be served the October birthdays. Nuts for some one all right.

Big Reduction in price of all Wood Heaters, Stoves and Ranges at Whitman's Hardware Store. Come in and make an Early Selection while the Assortment lasts.

Mr. and Mrs. Fred Bohrman returned Tuesday evening from Pacific Grove where they had a most enjoyable time, altho it is considerably cooler there at this season than in our valley.

"I'll Show'em Durn'em."

I've stopped the paper, yes I have,
I didn't like to do it,
But the editor he got too smart,
And I allowed he'll rue it.
I am a man who pays his debts,
And will not be insulted,
So when the editor gets smart
I want to be consulted.

I took the paper 'leven years
And helped him all I could sir,
But when it come to dunnin' me
I didn't think he would, sir.
But that he did, and you can bet
It made me hot as thunder;
I says, "I'll stop that sheet, I will,
If the doggone thing goes under."

I hunted up the editor
And fer his cunnin' caper
I paid him 'LEVEN years and quit!
Yes, sir, I stopped the paper.

Kodak finishing is Hulse's specialty. Have your favorite pictures enlarged free. Smith's Stationery Store is Campbell agent.

Local and Personal

SMITH SELLS STATIONERY.

Mrs. Claude Gard spent the week-end in the city.

Oluf Strom made a business trip to San Francisco the first of the week.

F. G. Wells left last Wednesday on a six week's business trip to points in Iowa.

Fine Assortment Heaters, Stoves and Ranges, Burn Wood or Coal. Reduced Prices. Whitman's.

Mr. and Mrs. A. P. Merrill visited the Jewel City Tuesday, making the trip with Dr. Cooper.

Rev. G. E. Atkinson was elected Pastoral Counselor for the county C. E. at the convention in Santa Clara last week.

S. M. Pearlman of San Francisco will substitute at the pill counter next week during Mr. Beall's absence.

Mrs. A. W. Johnson is entertaining her brother and wife, Mr. and Mrs. Sherman and their small son, of Honolulu.

Mr. W. W. Stewart celebrated his birthday Saturday. His family had a couple of Los Gatos friends in for tea in his honor.

George Whitney and John Evans went to Westley Monday where they are erecting a house on Campbell owned property.

The Misses Charlotte and Harriet Palmer who have spent the summer in this part of the state returned to their home at Pomona, last week.

Henry Young is at Gilroy Hot Springs where he is taking treatment for rheumatism. Claude Townsend is taking Mr. Young's mail route.

When you are in need of a pair of heavy or light Orchard Shoes the Campbell Cash Shoe Store can supply you, Tan or Black Colors $3.50 and $4.00.

Master Harold Cramer was host Saturday afternoon to about a dozen of his boy friends. The youngsters had a thoroly enjoyable time with croquet and other games.

Dr. A. A. Atkinson and family of Dorris, Siskiyou Co., arrived Monday, for a visit with his relatives. The doctor is taking a month's vacation, part of which will be spent at the city seeing the Fair.

The many friends of Raymond Cowles will be glad to hear that he is recovering from his threatened attack of typhoid, which bore all the symptoms of walking typhoid, and is able to be about a little.

Mrs. McLernon of San Francisco who has been the guest of Mr. and Mrs. C. E. Hanger, spent this week with Mr. and Mrs. T. Mendel. Mrs. McLernon and family came from England with Mr. and Mrs. Mendel on their recent visit.

Our office has been beautified recently by bouquets from several of our lady friends, roses from Mrs. Chas. Sutter; chrysanthemums in our native state of Minnesota colors, maroon and gold, from Mrs. John Duncan; and carnations and dahlias from Mrs. Geo. Whitney.

Mr. and Mrs. H. Beall of Jaspar, Mo., arrived Monday for a visit with Mr. Beall's brother, our genial druggist, and his wife. The gentlemen have not been together for 22 years, and they will continue their reunion next week when both families will attend the Fair. Mr. Beall is a real estate operator in Jaspar.

L. D. Bohnett has been appointed attorney for the State Water commission. The work of the commission is to relieve the courts of litigation along that line similar to the work of the State Railway Commission. Mr. Bohnett's duties will be largely advisory, and his many friends in Campbell extend congratulations to him upon his appointment.

Locals Defeat Fast Normal Team

The first practice game of the basket ball season for the local high school team was played on the local courts Friday afternoon against the San Jose Normal team.

The first half was too slow a game to be exciting the boys showing very little enthusiasm. The first half ended 10 to 2 in favor of the Normals. From the very start of the second half our boys went in with their old time pep and took the pedagogues off their feet more, than tying the score before the visitors had made a point. Both teams played better team work and scored faster, the final count being 37 to 25 in favor of the Highs.

The following is the line-up:

Bydekarken	C	Kirby-Pearce
Bryant	F	Jewett
Cox-Oliver	F	Boyle-Hibbs
Lancaster-Feathers	G	Lancaster-Luckenmeyer
Kennedy	G	Pearce-Mosher

The locals will play the Montezuma Boys this afternoon on the Campbell court.

Col. Clifford J. Ringe

Prominent Rancher Died Tuesday

Clifford J. Ringe passed away at his home, Missouri Ranch, on Los Gatos road Tuesday evening after a lingering illness of several months duration. He was a native of England being 59 years old at the time of his death.

Coming to America when but a boy, he began his life as a railroad man continuing until he had become an engineer. Leaving the railroad work after an accident 11 years ago, the Colonel purchased the ranch south of town and with his wife came here from Trenton, Mo., to make their home.

He was a member of the Odd Fellows, Elks and Redmen, at one time holding a state office in the latter order.

Col. Ringe has been an active worker in the improvements and promotion plans of our community for some years past and will be greatly missed.

Funeral services were held from the home yesterday afternoon. Interment at Cypress Lawn.

The deceased is survived by his wife and a sister, Mrs. John Mansfield of Vancouver.

Hallowe'en Social

Arrangements for the Hallowe'en party to be given on the school grounds under the auspices of the Home and School Club, are progressing finely.

There will be a bonfire, program and games, with refreshments of apples and nuts. The latter will be furnished by the parents and all are requested to bring a small quantity of either so that there will be an abundance.

The Club is very anxious to assist in making the school house cleaner and a little more attractive by doing some painting in the interior, so a collection will be taken at the social to help purchase paint.

A real good get-to-gether time for citizens and scholars is in store. Plan to attend.

The following committees have been appointed:

On grounds and bonfire.
Mrs. G. W. Page,
Mr. W. B. Kammerer.

Program.
Miss Mary Clark,
Miss Phoebe Farley,
Miss Minnie Atkinson,
Miss Matie Sawyer.

Refreshments.
Mrs. G. E. Atkinson,
Mrs. G. A. Reynolds,
Mrs. H. C. Smith.

Pro Non-Politics

The opponents of the State non-partisan law continue their charges that the measure destroys national parties. This, in spite of the fact that the measure definitely provides for party nomination and election of United States Senators, Representatives in Congress, Presidential Electors, Party Committeemen and Delegates to National Party Conventions.

Among those who are declaring that the measure destroys parties is Fred H. Hall, who was defeated for Democratic nomination for Governor last year. Mr. Hall goes so far as to say that ratification of the measure would lead to "unbridled political anarchy".

"A man of Mr. Hall's good sense", says the San Francisco "Star," should not make such queer statements, because they provoke laughter".

The "Star" is published and edited by James H. Barry, Naval Officer at San Francisco. Barry is a staunch Democrat in national affairs. He is also one of the strongest advocates of non-partisanship in State affairs, holding that in selecting men for State office fitness is a more important consideration than national party label.

"Mr. Hall", the "Star" goes on to say, "knows, as do all the other politicians who are fighting the Non-Partisan laws, that there is not a line in those laws that prevents partisan nomination and election of Presidential Electors, Representatives in Congress and United States Senators. But the opponents of the Non-Partisan laws very carefully conceal the fact. Why do they conceal it? Is it fair to the voters for party officials to conceal material facts?

The so-called non-partisan law, is, as a matter of fact, a direct primary law which provides for partisan nomination and election of national officers, and non-partisan election of state officers. It upholds partisanship in national affairs. It establishes non-partisanship in State affairs. It frees State offices from partisan handicap, placing fitness for office above blind partisanship.

One hundred ministers were entertained at a complimentary luncheon at the Exposition Y. W. C. A., Monday, G. E. Atkinson representing Campbell.

M-m-m-my, but they're good!

Post Toasties, the new corn flakes, are growing in popularity because

—they are sweeter and more palatable than the ordinary kind
—they are so deliciously crisp that you just can't stop eating them
—they can be used in such a pleasing variety of combinations with other foods.

Post Toasties Sell for 10c per Package

No more disappointments in making mayonnaise dressing. Wesson Oil will respond to your efforts and thicken every time.

Wesson Oil is refined to a water white purity. It represents the last step toward salad oil perfection.

PRAISING THE LUSCIOUS PIE

Writer With a Subject Worthy of His Pen Dilates in a Rhapsody Worth Reading.

Let us celebrate the gastronomic poem of the age—the pie. It graces each season, but most especially is it dedicated unto midsummer and the time of berries, black, red and blue. The pie is both friend and foe, comforter and avenger. It is mighty in the mightiest. It can mercilessly slay, and it can soothe and assuage the drooping spirit. It is a poem both lyric and elegiac—singing the sheer pleasures of the senses and again, peradventure, the pains thereof. Deadly is the pie when overeaten, but gracious, yea, and beneficent, when partaken of in due measure and in reverential awe of the lawful gastric processes.

"My blessings on the head of him who first invented sleep," sighed Sancho Panza on a memorable occasion. Be ours on the head of him who first invented pie. May he dwell forever on blessed isles of pie among the cherry orchards of Elysium. May his jowls delight in mincemeat, pumpkins, the juicy squash, the tooth-staining blueberry, the pippin apple and oodles of lemon custard.

"Something felicitous and fruity between two crusts"—that is pie. Long may it wave! Begin at one corner of the crust and eat judiciously along the outer crust in order that something felicitous and fruity may remain, like wine, the best at the last.

Let us heartily rejoice that it is our good hap to dwell within the great New England pie belt, and not a thousand miles from certain justly celebrated pie foundries.

Give us liberty, or give us death. But, failing that, give us pie.—Boston Globe.

SPLINTERS OF THE FAR PAST

Declared by Scientists Who Ought to Know to Be Many Millions of Years Old.

The discovery of splinters millions of years old has been made by a professor of paleontology at the University of California. The splinters are neither decayed nor petrified, but retained the grain and distinct markings of the California redwood, and it is even possible to whittle shavings from the larger splinters. The discovery of these splinters was made at Mussel Rock, California, a bank of rock about twenty miles out of San Francisco. This stratum of rock offers an excellent opportunity for the study of rock formations, and it was while on a trip of this kind that the splinters were found embedded in the sandy base of the rock. Furthermore, these splinters were contained in a stratum which had sunk under the sea and had been afterward raised and turned over in a different position so that the redwood trees were in a horizontal position instead of vertical.—World's Advance.

Importance of the Corn Crop.

Corn is king of all the crops. More than 20 per cent of all the improved farm land in the United States is annually devoted to the growing of corn. In 1914 105,000,000 acres were planted to corn in this country, producing 2,700,000,000 bushels, which brought the growers $1,900,000,000. For nearly fifty years the land planted to corn has been equal if not greater than the acreage of all other cereal crops combined.

Corn from a standpoint of acreage yield and value exceeds every other crop.

Wherever corn is grown, there you find high-priced land and prosperous people.

No other crop can replace corn, but corn can readily take the place of any other grain crop.

Corn is put to a greater number of uses than any other crop that grows.

There are greater possibilities for improvement, yield and quality of corn than any other crop.—From a Lecture by P. G. Holden.

Motoring in Spain.

Motorists in Spain describe the road between Irun and San Sebastian as very beautiful, and the latter place, even in the rain, looks most attractive to those speeding through. The way runs along the Oria river, a turbulent stream, through Tolosa to the village of Beasain, where the traveler leaves the Oria.

By a curious optical illusion, although running steadily uphill all the while, meeting the rushing torrent, the road appears to be a down-hill one.

So it is on the reverse journey, although from the running of the car one is obviously going down quite a considerable gradient the road looks level.

A Swift Uppercut.

"I see you have your arm in a sling," said the inquisitive passenger. "Broken, isn't it?"

"Yes, sir," responded the other passenger.

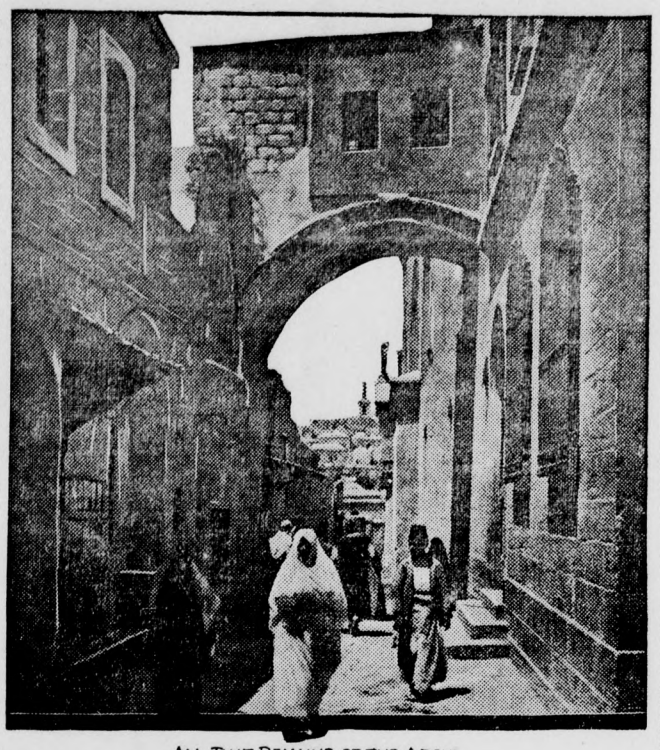
"Meet with an accident?"

"No; broke it while trying to pat myself on the back."

"Great Scott! What for?"

"For minding my own business."—Ram's Horn.

ECCE HOMO ARCH, JERUSALEM



ALL THAT REMAINS OF THE ARCH

THE FAMOUS Ecce Homo arch, spanning one of the modern and narrow streets of Jerusalem, is nothing else than the remaining part of an ancient Roman triumphal arch of the well-known type. The room above it is of course modern. In its day it stood across a wide paved street; under it rattled the Roman chariots, while the smaller arches, one on each side, accommodated the pedestrians, writes John D. Whiting in the Christian Herald.

Adjoining the arch on the north is part of the building belonging to the Sisters of Zion, where, in all probability, in the days of Jesus stood the Pretorium, or "Hall of Judgment," where also the then Roman governor, Pontius Pilate, lived. Almost directly opposite we find a Turkish barracks, being undoubtedly the site of the Castle of Antonia. This latter site was originally a natural rocky spur, jutting out into the northwestern corner of the temple area.

Forty years ago the place where the buildings of the Sisters of Zion now stand, before alluded to, was nothing more than a tumble-down heap of ruins of a late date and great refuse heaps. While preparing for the construction of the present church and schools, and the removal of the debris, the northernmost of the two smaller arches was found intact, adjoining the large one. Several feet below the present street level an extensive pavement made of large thick stone slabs well laid was uncovered. Ten years later, when digging through the street for a sewer, more of this pavement was brought to light.

This latter has long since been covered up, while that part within the limits of the buildings occupied by the Sisters of Zion is laid open to view, as well as the northern portion of the triumphal arch.

Let us examine this pavement. At the outer edge we find the blocks grooved, and we see that this was a street pavement intentionally roughened to keep the animals from slipping. We also observe that this part is directly in line with the large central arch, while next to it and in line with the small arch the blocks are smooth and clearly only intended for the use of pedestrians. It is only because the present street is so much narrower than the ancient one that we find some of the Roman street pavement within the limits of the present buildings. But the important point is that this pavement is not confined to a street and sidewalk, but extends far in, or about 100 feet in width. Its entire length has as yet not been ascertained by excavation.

On the smooth surface of these stone slabs we see cut into them Roman games. Two large stone benches, something the shape of a pedestal, about four feet high, placed on the pavement, were also unearthed.

Was an Important Place.

That this spot in Roman times was extremely important there can be no doubt. Nowhere else have there been found paved streets of this description nor has another triumphal arch been known.

Here on one side of the street we find the Roman castle, on the other a large paved court taking the place of a forum. That the Hall of Judgment and home of the governor should be situated by this city square seems quite natural, and the Bible accounts go far to make it clear. Having thus fixed the surroundings in our minds as we stand on this pavement, we can almost see small squads of Roman soldiers, while off duty from the castle, lounging here or passing the time with their games which they themselves have cut into the face of this pavement, or it may be we shall soon see a large crowd congregating here, listening to some orator standing above the audience on one of these stone benches, or "bema," as they were then called, and placed here for the purpose.

We see men hastening along this very street, leading as it did to the "Sheep Gate" (the modern St. Stephen's gate), and join a crowd with torches at Gethsemane, which, with the betraying of Judas, have taken the Nazarene found here absorbed in prayer. They lead him up the steep slopes of the Kedron valley into the city to the palace of Caiaphas, the high priest.

By morning we see them move on to the public square before Pilate's house. Pilate comes out from the palace to the crowd clamoring against Jesus. The Jews will not enter the Judgment Hall lest they be thereby defiled and prevented by their law from eating the passover which was then being kept. Therefore we see Jesus entering alone with Pilate. During the short interview that ensues Pilate asks: "Art thou the king of the Jews?" Jesus answers: "My kingdom is not of this world." Pilate reappears. The square is crowded and we hear Pilate says: "Will ye that I release to you the king of the Jews?" But the clamoring reply is: "Not this man, but Barabbas." Pilate now orders Jesus to be scourged. A soldier, possibly running to a pile of thorn bushes such as are still extensively gathered and kept for fuel, plaits a crown, which is placed upon Jesus, as also a purple robe. Thus he is presented to his adversaries outside, and Pilate's voice is heard above the din of outcries, saying "Ecce Homo" (Behold the man).

The high priests call out "Crucify him." Pilate seeks to release him, but the former, knowing his weak spot, for Pilate was only a procurator or governor under Caesar in Rome, call out: "If thou let this man go thou art not Caesar's friend; whosoever maketh himself a king speaketh against Caesar."

Where Pilate Sat.

Pilate is influenced. We see him now returning to the crowd outside, and taking his seat upon one of these stone benches here preserved, he has Jesus led before him, complies fully with the requests of the Jews, and the crowd disappears with crosses and Roman soldiers. It is about the sixth hour, or noon, for then, as now, in eastern countries time begins with sunset.

Thus in our mind's journey we have followed closely St. John's graphic account given in the eighteenth and nineteenth chapters. The thirteenth verse of the latter chapter is of all important interest to our subject. "Pilate therefore . . . brought Jesus forth, and sat down in the judgment seat in a place called pavement." The words here translated in the authorized version "judgment seat" have been rendered in a more critical translation by J. B. Rotherham "elevated bench." In the original Greek it is "bema," meaning an elevated platform for orators' use. Nor does the context go to show that it was anything like an official throne or judgment seat.

Jerusalem has been besieged and destroyed more times than any other city. Nearly 2,000 years have elapsed since the days we have been thinking of. Naturally we cannot, nor should we expect, to find here absolutely certain spots associated with our Lord's life on earth. In fact few of the many now pointed out are capable of being authenticated. Nevertheless, as we turn away from this spot we cannot help but feel we have looked upon the very "pavement" trod by our Lord, and probably have seen the very seat from which Pilate gave sentence.

It is true that some archeologists may argue that this triumphal arch is later than the days of Christ; but even if this were so it does not disprove the "pavement."

WITH THE GOOSEBERRY

RECIPES FOR PRESERVES AND OTHER DISHES.

Made Up Into Jam It Will Be Appreciated in the Winter—Method of Serving Them in Batter.

Gooseberry Jam. — Seven pounds green gooseberries, eight pounds sugar.

Method.—Top and tail the gooseberries and place them in a preserving pan. Add the sugar and slowly bring to boiling point and boil for 40 minutes. If the jam jellies quickly when a sample is placed on a saucer it is quite ready and must be bottled at once.

To Bottle Gooseberries.—Gather together some bottles with wide necks. See that they are perfectly clean and dry. Fill them with gooseberries and place in the oven until thoroughly hot through without breaking the skins. Remove from the oven, add two tablespoonfuls sugar to each bottle, and fill up with boiling water. Seal with paraffin and store.

Gooseberries in Batter.—Four tablespoonfuls flour, two eggs, pinch salt, half pint milk, half pint gooseberries, one tablespoonful sugar, ten ounces dripping or butter.

Method.—Prepare the batter by mixing the flour and salt with a little milk and the eggs beaten to a froth. Beat this thoroughly until smooth and the surface free of bubbles. Stir in gently the remainder of the milk. Heat the fat until smoking hot in a baking tin and pour in the batter and gooseberries. Bake in a hot oven for half to three-quarters of an hour. Cut into sections and sprinkle freely with pulverized sugar.

Gooseberry Souffle.—One pint stewed gooseberries, quarter pound sugar, two ounces butter, 1½ ounces flour, two teaspoonfuls corn flour, three eggs, one teacupful milk.

Method.—Prepare a sauce with the flour, corn flour, milk and butter. Stir in the gooseberry pulp and the yolks of eggs, also the sugar. Beat the whites to a stiff froth and fold these carefully into the mixture. Prepare a souffle mold by tying a greased paper round the top. Place the mixture in the tin and steam for an hour. Turn out very carefully and serve at once.

Gooseberry Jelly. — Seven pounds green gooseberries, two quarts water, one pound sugar to each pint liquid.

Method.—Crush the gooseberries with the rolling-pin or potato masher. Place these in a pan with the water and cook until soft and tender. Strain the mixture very carefully, without squeezing, through a coarse cloth. Add a pound of sugar to each pint of liquid and boil for half an hour to three-quarters.

Baked Pears.

Pare and core, without dividing, as many pears as you wish; place them in a pan and fill centers of pears with brown sugar. Add a little water and let them bake until perfectly tender. Serve with sweet cream or boiled custard.

An old-fashioned way is to place pears in a covered baking dish, without paring. Add one very small cupful of molasses to every two quarts of pears; but little water is necessary. Bake about two hours. If you wish, you may pare and core them, using one small cupful of sugar instead of molasses.

Ideal Soup Kettle.

One of the woeful aspects of soup-making in the pre-enamel-ware days was the cleansing of the heavy iron kettle; for washing a kettle big enough to hold a shinbone of beef with trimmings was no joke. Today, however, one can have the trim, enameled kettle in any size, light, yet strong, and all it needs is hot suds and a good rinsing to make it beautifully clean and sanitary. If, in addition, there is a colander of enamel ware for straining of the soup into a pan to match, the equipment is ideal for cleanliness, quickness and results.

Plums in Rice Border.

Cook the rice in milk until tender and quite dry, adding a pinch of salt when it is half done. Make it rather sweet with powdered sugar and pour into a border mold to set. When ready to serve, turn it out carefully and fill the center with very rich stewed plums, pour a little of the sirup over the rice and heap whipped cream over the plums. The stones should be removed from the fruit and the kernels simmered ten minutes in a little thin sirup and then mix with the fruit.

Prune Souffle.

Mash sufficient prunes to make one-half pint, press through a colander, add four tablespoonfuls sugar and stir in the well-beaten whites of four eggs. Turn into baking dish, dust with powdered sugar and bake in moderately quick oven ten minutes.

Lemon Cookies.

Cream one cupful of butter with two of sugar, add three beaten eggs and flavor with lemon juice. Sift into this enough flour to make the dough stiff enough to handle, roll thin, cut out and bake.

New Flavoring.

Several tablespoonfuls of peanut butter creamed with the shortening are recommended for giving a novel and delicious flavor to cookies or any dark cake.

Prominent Style Features in Gowns

The most attractive of the new gowns already displayed for the coming winter, are characterized by the long straight lines that belong to the semifitting princess, and by the inspiration of the Russian blouse. Combinations of two materials in the same gown are worked out in one-piece frocks made of cloth and silk, or cloth and velvet. Buttons and braids and sashes of the same fabrics as the gown appear with such frequency that they are assured a place in the coming season's fashions.

In suits there are numbers of severely plain and perfectly tailored designs, the coats semifitting, with the skirt portion showing a ripple or full flare. Dark cloths are chosen for these. The skirts, while amply full, are not decidedly flaring but they are decidedly short.

The Russian idea is developed with fine success in the various pile fabrics used for dressier suits. Many novelties in the light weight plushes and fur cloths, as well as plain velvet, promise much for the popularity of this style.

One of the handsomest of these suits is shown in the picture. The skirt is full and plaited and reaches to the shoe tops. It is made of a plain, light weight, silky plush with an overdrapery of a striped plush of the same color. The stripe is made by a difference in the direction of the pile and not by a difference in color.

The coat is the regulation Russian model buttoning to the side. It is worn with a belt of patent leather.

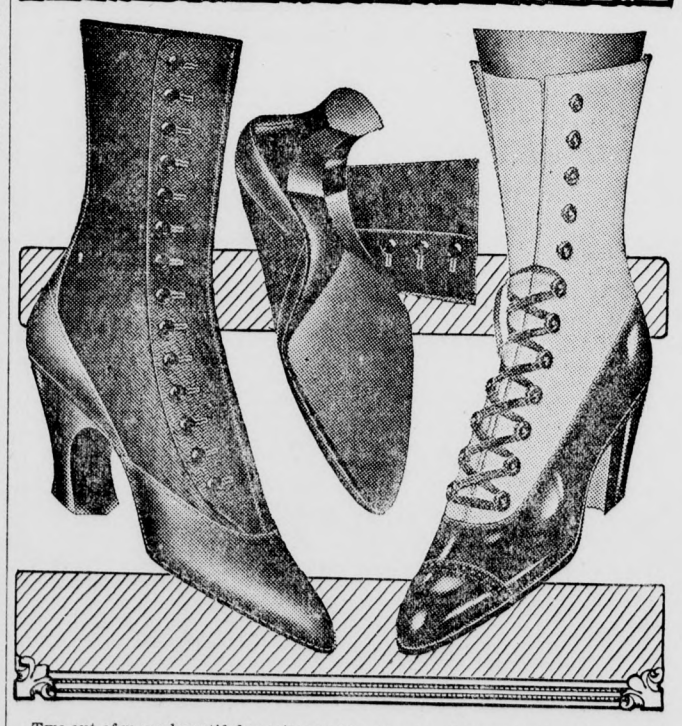
In the management of the collar and cuffs the designer has introduced an individual touch. A narrow "V" shaped collar is attached to the blouse apparently by high buttons. It supports a wide turnover about the sides and back.

The wide turned-back cuffs slope outward and the edges are curved forward. A row of buttons finishes each of them.

The long sash ends of self fabric which appear on many of the new gowns merit much consideration. Besides their pleasing novelty they are graceful and give opportunity for very effective decoration which adds much to the finish of a frock or suit.

JULIA BOTTOMLEY.

Two of the New High Boots for Street Wear



Two out of many beautiful specimens in footwear for fall are pictured here. They are combinations of cloth and leather in high boots for street wear, and are among the most conservative of the new designs. They are trim, shapely and neat, with everything in style and finish to recommend them.

The very short skirts, which, in many instances glimpse the stockings above the boot-tops, make smart dressing of the feet imperative. New footwear embodies many styles in which contrasting colors are used with uppers made of cloth and the remainder of the shoe in dull finish or in patent kid. But the colors used for tops are quiet, with various tan and gray shades predominating. The dark colors which are correct for tailored gowns are used in the uppers for shoes to match. Or for midwinter wear spats like the tailored gown are to be worn with black shoes.

Among the fancier shoes are those without seams made of light tan, black or bronze leathers, that lace on the inside. The leather uppers seem to be in one piece stretched to fit the foot. They suggest a close-fitting boot like those worn by men in days gone by.

Even more daringly masculine are the short Cossack boots with their ornamental turnover band at the top. They are fascinating achievements in footwear and are steadily gaining headway, appearing with more frequency on the promenade than at any time since their introduction.

Very light shades in tan are liked for all-leather street boots, to be worn with suits in any dark color. The Cossack boot ought to appear with greater frequency as the season advances and Russian street suits, fur-trimmed, come more and more into vogue.

JULIA BOTTOMLEY.

Borax for Colored Linens.

The delicate shades of the now fashionable colored linens may be kept from fading by using plenty of pure pulverized borax in the water in which they are washed and rinsed.

CONSUMPTION TAKES 350 PEOPLE DAILY

Over 350 people succumb to consumption every day in the United States.

Science proves that the germs only thrive when the system is weakened from colds or sickness, overwork, confining duties or when general weakness exists.

The best physicians point out that during changing seasons the blood should be made rich and pure and active by taking Scott's Emulsion after meals. The cod liver oil in Scott's Emulsion warms the body by enriching the blood; it peculiarly strengthens the lungs and throat, while it upbuilds the resistive forces of the body to avoid colds and prevent consumption.

If you work indoors, tire easily, feel languid or nervous, Scott's Emulsion is the most strengthening food-medicine known. It is totally free from alcohol or any stupefying drug. Avoid substitutes.

14-42 Scott & Bowne, Bloomfield, N. J.

One on John D.

John D. Rockefeller tells this story on himself:

"Golfing one bright winter day, I had for a caddie a boy who didn't know me. An unfortunate stroke landed me in a clump of high grass.

"'My son,' I said, 'what am I to do now?'

"'See that there tree,' said the boy, pointing to a tall tree a mile away. 'Well, drive straight for that.'

"I lofted vigorously, and, fortunately, my ball soared up into the air; it landed, and it rolled right on to the putting green.

"'How's that, my boy?' I cried.

"'Gee, boss,' he said, 'if I had your strength and you had my brains, what a pair we'd make!'"—Tit-Bits.

An Easy Way to Heal Your Skin-Trouble

Resinol ointment, with resinol soap, stops itching instantly, quickly and easily heals the most distressing cases of eczema, heat-rash, ringworm or similar tormenting skin or scalp eruptions, and clears away pimples, blackheads, redness, roughness, and dandruff, when other treatments have proven a waste of time and money.

Physicians have prescribed this resinol treatment for twenty years, while thousands who have been cured say, "What resinol did for us it will do for you." Every druggist sells resinol ointment.—Adv.

His Awakening.

The sick man has just come out of a long delirium.

"Where am I?" he said, feebly, as he felt the loving hands making him comfortable. "Where am I? in heaven?"

"No, dear," cooed his devoted wife, "I am still with you."—Kansas City Journal.

In the Making.

"I'll have you understand, sir," said the bustling little chap, "that I am a self-made man."

"All right, old man," said Jiggers. "Now run along home and finish the job, and then I'll talk to you."—Judge.

Perfectly Awful.

"I owe a lot of bills."

"That's bad."

"Yes, and I'll have to pay some of them. That's worse."—Kansas City Journal.

JUST A LITTLE SMILE

LITTLE JIMMY MUCH KISSED

Disclaimed Any Intention of Rubbing Off Caress of Noted Woman—Was Trying to Rub It In.

Little Jimmy had reached the conclusion that everybody in the world had kissed him or wanted to very badly. He could not help being a boy that all the ladies wanted to pet and bestow their kisses upon. In fact, Jimmy longed for the day when he would have a say so in the matter of being kissed. One day a famous woman came to call upon his mother. Jimmy chanced to enter the parlor and was directed by his mother to come up and see the noted Mrs. So and So. Jimmy knew what was coming, but he could not prevent the occurrence. The visitor took him by the hand and gently gathered him up into her lap, and as she let him down to the floor again she graciously bestowed a kiss upon his pouting lips. Jimmy jumped away from her and began to rub his lips in a vicious manner.

"What, you are not rubbing my kiss off, my little man?" questioned the woman. Jimmy was puzzled for a few moments, then replied:

"No, ma'am; I'm just rubbing it in," and then vanished through the door.—Louisville Times.

Injured Feelings.

"When you married me you said I was the only woman in the world for you."

"So I did, my dear."

"Do you still think so?"

"Why, of course."

"Pshaw!"

"Why the skepticism, my love?"

"I think you might at least take your pipe out of your month to say it!"

Pleasing Conversation.

"My dear, I know he says a great many things about your good looks."

"What of it?"

"It is mere flattery."

"Well, maybe it is," said the girl, "but it sounds good. I'd rather listen to that sort of talk than literary conversation or opinions about the length of the war."

NO DOUBT.

Weary—Dere wuz one feller in de ark wot would made a good railroad president.

Ruggles—Who wuz it?

Weary—Why, de feller wot watered de stock.

Theory and Practice.

First Able-Bodied Male—Woman's place is in the home. As I was telling my wife—

Second Able-Bodied Male—By the bye, Bill, what's yer wife doin' now?

First Able-Bodied Male—Workin' in the cannery.—Judge.

Some Job.

Gayboy '15—Struck a job yet, old top?

Grinder '15.—Well—er—not exactly. I've been quite busy, though, trying to sell my prize thesis, "The Solution of the Great Problem of the Unemployed" to some magazine.—Puck.

Blind to the Biscuits.

"Do you believe the way to a man's heart lies through his stomach, Mrs. Pilcher?"

"Certainly not."

"You have other views, then?"

"Most assuredly. Tickle his vanity, and he'll eat anything."

Why, Certainly.

Flatbush—My wife is always on the wrong side of a question.

Bensonhurst—How do you know she is?

"Because she never agrees with me."

Standing for No Foolishness.

"Don't you dare call me a liar, sir!"

"I was merely going to question your veracity."

"In that case, be sure you make it a hypothetical question."

HOW HER HUSBAND GOT EVEN

Wife Tidied Up His Desk Beautifully, and to Reciprocate He Straightened Up Her Sewing Room.

A busy housewife came into the sitting room with a determined look in her eyes.

"I really shall have to punish those children," she began.

"What have the little beggars been up to now?" asked father, looking up from his newspaper.

"Why, they've made a mess of my sewing room," explained the wife. "Needles, reels of cotton, scissors—everything has been hidden away in the most unexpected places. It is really exasperating."

Her husband laid down his paper and smiled benignly.

"I did that," he said, calmly. Then, in answer to a questioning look, he went on: "You tidied up my desk so beautifully the other day that I thought it only fair to return the compliment. So I tidied up your sewing room."—Pittsburgh Chronicle-Telegraph.

Took No Chances.

Lady (to maid, who has announced her intentions of leaving to get married)—I hope you realize, Mary, that matrimony is a serious matter?"

Mary (earnestly)—Oh, yes, mum. I've been to two fortune tellers and a clairvoyant, an' looked in a sign book, an' dreamt on a lock of hair, and been to a palmist, and they all say it's all right. I ain't one to marry reckless like, mum.—Passing Show.

A CARELESS CANINE.

Gentle Willie—Why dost thou weep? The dorg but took a piece out of your pantaloons!

Wearie Walker—When he grabbed, pard, he caught hold of more than the pants!

Always Something Doing.

"There hasn't been a change on this bill of fare in twenty years," growled the grizzled patron. "Have you restaurant men no ingenuity?"

"Guess we have as much as the next fellow."

"Then why don't you get up a new dish occasionally? The corner druggist has a new kickshaw at the soda fountain every time you amble up to it."

A Bad Investment.

Mrs. Naggs—John, we'll never be able to save a cent if you don't quit being so extravagant.

Naggs—Why, my dear, I don't think I'm at all extravagant.

Mrs. Naggs—Of course, you are. There's that accident policy you bought nearly a year ago, and you haven't used it once. If that isn't extravagance I don't know what is.

Solace for Poor Luck.

"Even when a man fails to catch any fish, the outing does him good and he comes back in better health," said the optimistic angler.

"Perhaps that is true in some cases," replied his bibulous friend, "but I find that the less inducement there is to pull a cork out of the water, the more there is to pull one out of a bottle."

Conceited.

"How conceited she is."

"What makes you think so?"

"I proposed to her and she said she wouldn't marry the best man on earth."

"Well, what of that."

"I was the man she was referring to."—Detroit Free Press.

Not an Expert in Ice.

"I'm so sorry the cream is sour!" said young Mrs. Torkins.

"Everything in the refrigerator appears to be spoiled," commented her husband.

"It's the ice man's fault. He will bring around artificial ice, and I can't tell it from the genuine."

Far Removed.

"Do you know that I come from fighting stock?" asked Mr. Pillbeck, in a threatening manner.

"Umph!" replied Mr. Wallick, not at all impressed. "I suspect you've been coming a long time and haven't stopped yet."

After the Trial.

"Now if you are acquitted," said the lawyer, "you can go on the stage."

"But suppose I should happen to be convicted?"

"Um. In that case, I suppose you'll have to write a book."

A Strong Opinion.

Fritz—You know Limburger cheese improves with age.

Fred—I don't believe it. I think it smells just as bad when it's twenty years old as it did the day it was made.

EAT AIR AND RAIN

Interesting Statement Made by a Prominent Scientist.

Three-Fourths of All Food We Eat Is Derived Originally From Rain; 80 Per Cent of Remainder Comes From Air.

Three-fourths of all the food we eat is derived originally from rain. Of the remainder, 80 per cent comes from the air, the balance—one-twentieth part of the whole—is obtained from the soil.

This interesting statement is made by Dr. A. T. Stuart of the Canadian department of agriculture, who describes the farmer as the great manufacturer. He makes the things which other people merely put together in different ways.

The farmer takes 75 pounds of water, 20 pounds of air and 5 pounds of soil. These are his raw materials, and from them, in the quantities and proportions above mentioned, he turns out 100 pounds of products.

The mixture of gases which we call air is a fluid by no means so thin and imponderable as we are accustomed to imagine. An ordinary packing box three feet cube will contain about two and one-half pounds of it. The twenty pounds of air that contribute so important a percentage of our food supply would occupy, at normal sea-level pressure, a cubical space 15 feet on an edge.

The 75 pounds of water would make about nine and one-half gallons. Five pounds of soil will represent the contents of a clay flower pot of moderate size; and thus one forms an idea easily grasped of the quantities of the three original raw materials required by the farmer for the manufacture of 100 pounds of products.

These products are food and clothing. Of all the clothes people wear, 9 per cent is made of animal or vegetable materials that are the yield of agriculture. Even the leather of which our shoes are made is, of course, a farm product. Silk is spun by caterpillars, but in reality is is nothing but mulberry leaves, converted by their agency into a fiber that can be woven.

We know what air is, and water is familiar enough. That soil is merely powdered rock, containing a small percentage of decayed vegetable matter, has long been understood. But many facts in regard to this last indispensable raw material of the farmer have only recently been learned.

Consider, for one thing, the size of the rock particles. In some soils they are so tiny, according to Doctor Stuart, that one hundred millions of millions of them may be held on the point of a penknife.

That seems remarkable, does it not? But take a single pound of this kind of soil, and measure the total surface area represented by its component particles. It is a not very difficult problem in mathematics. The total surface area of the particles that go to make up one pound is about three acres.

This is in itself a matter of much importance, from the viewpoint of the farmer-manufacturer, for each particle of soil is enveloped by a thin film of water. And it is from this water that the plants he grows derive their sustenance.

The fluid in question, however, is not merely water. It is a kind of soup, in which plant food, both organic—from the decayed vegetable matter—and mineral, is dissolved. What we call the "fruitful land" is merely a bed for the plants to stand up in while they feed upon this soup.

Under the microscope all plants are found to be made up of little cells or pouches filledl with fluid. In an orange or lemon they are so big as to be easily seen when the fruit is cut. Each of these cells—which multiply at a wonderful rate to make what we call growth—is a little chemical factory, and it is they which, under the general management of the manufacturing farmer, produce "protein," fat, starch, sugar, fiber, etc., with incidental colors and flavors, to supply in a multitude of forms the demands of the market.

Not in the Safety Zone.

"I'm afraid this is a tough neighborhood," said the prospective tenant.

"Well, it isn't," replied the real estate agent. "What put that fool idea into your head?"

"There isn't a policeman in sight," answered the other.

Contrary to Ethics.

"Where's the waiter I had yesterday?"

"He was dismissed for carelessness," answered the head waiter. "He was overheard to say 'Thank you' for a twenty-five-cent tip."

Just Possible.

Gayboy—I'm delighted to have met you, Miss Swift, and I hope to see more of you.

Miss Swift—Oh, perhaps you will. I'm going to spend the summer at the seashore.

The Case.

"What did the poet mean when he asked his sweetheart to drink to him only with her eyes?"

"Of course, she had liquid eyes, stupid."

Equal to a Cat Concert.

Mrs. Hixon—Is your husband a sound sleeper, Mrs. Dixon?

Mrs. Dixon—Well, you would think so if you were to hear him snore.

Is Your Stomach Wrong?

Sooner or later you will be wrong in every organ of your body. It is a well known fact that over 95% of all sicknesses are caused by ailments of the digestive organs. If you have the slighest suspicion that your stomach requires treatment, don't delay a moment. Little ills soon grow into serious ills.

DR. PIERCE'S
Golden Medical Discovery

soon rights the wrong. It helps the stomach digest the food and manufacture nourishing blood. It has a tonic effect and soon enables the stomach and heart to perform their functions in a natural, healthy manner, without any outside aid.

As Dr. Pierce's Golden Medical Discovery contains neither alcohol nor narcotics there is no reaction. For over forty years it has stood the test of both use and abuse and is today the greatest remedy of its kind in the world. Begin now. Take it home today. Sold by Medicine Dealers in liquid or tablet form, or send 50c to Dr. Pierce's Invalids Hotel, Buffalo, N. Y., for a trial box.

For 31c you can get the Common Sense Medical Adviser, 1008 pages—cloth bound—to pay cost of mailing. Write Dr. V. M. Pierce, Buffalo, N. Y.

SILAGE FEEDING TABLE.

Table showing number of animals that can be fed from a silo for a period of six months, or 180 days, at the rate of forty pounds of silage per animal per day:

1	2	3	4
7	26	10	20
13	47	10	30
14	51	10	32
19	68	12	30
21	73	12	32
25	93	14	30
27	101	14	32
30	109	14	34
33	119	16	30
36	131	16	32
40	143	16	34
43	155	16	36
46	166	18	32
50	181	18	34
54	196	18	36
63	228	18	40
78	282	20	40
89	320	20	44

1—Number of cows; 2—estimated capacity in tons; 3—silo diameter, feet; 4—silo height, feet.

It should be understood that less than forty pounds can be fed with excellent results if there is enough good hay to go with it, so a dairyman can easily figure size of silo for any herd of cows, any length of time and for anything less than forty pounds of silage per day.

DON'T GET RUN DOWN.

Weak and miserable. If you have Kidney or Bladder trouble, Headache, Backache, Dizziness, Nervousness, and feel tired all over, get a package of MOTHER GRAY'S AROMATIC LEAF. It never fails. Sold by all Druggists or sent by mail for 50c. Sample sent FREE. Address, The Mother Gray Co., Le Roy, N. Y.—Adv.

Painful Truth.

Miss Singwell had been a member of the choral society ever since it had been in existence, and it was undoubtedly true that her first youth had waned. But the choirmaster was astounded recently by the news that she had resigned her membership.

"Resigned!" he gasped. "But whatever for?"

"Well, I don't know exactly," said the secretary, "but it strikes me that it may have something to do with the solo we picked for her at the next performance."

"Why? What is it?"

"Don't you remember? It begins, 'I once was young, but now am old.'"—Chicago Herald.

Dr. Pierce's Pleasant Pellets first put up 40 years ago. They regulate and invigorate stomach, liver and bowels. Sugar-coated, tiny granules.—Adv.

Reflected Glory.

Smith—Who is that fellow who seems so awfully popular?

Jones—Why, surely you must have heard of Lieutenant Dash, V. C., the man who shot fifty-nine Germans, saved the life of his Colonel, and, in fact, has done all the most thrilling deeds imaginable?

Smith (greatly impressed)—Good gracious! And you don't mean to say that that's really he?

Jones—Oh, no. This is Jimson, who claims to have gone to the same school some years ago.—Tit-Bits.

Took Umbrage.

"What was the trouble between you and that barber?"

"I simply asked him what was the damage; I meant the amount due him, but he took it as a reflection on his shaving ability."—Kansas City Journal.

Touching the Doctor.

"Oh, doctor, I feel funny inside!"

"What have you been eating?"

"That's just the trouble, doctor. I ain't had nothing to eat for a week. Can you spare a copper?"—Firefly.

BLACK LEG

LOSSES SURELY PREVENTED by Cutter's Blackleg Pills. Low-priced, fresh, reliable; preferred by Western stockmen because they protect where other vaccines fail. Write for booklet and testimonials. 10-dose pkge. Blackleg Pills $1.00 50-dose pkge. Blackleg Pills 4.00 Use any injector, but Cutter's best. The superiority of Cutter products is due to over 12 years of specializing in vaccines and serums only. Insist on Cutter's. If unobtainable, order direct. THE CUTTER LABORATORY, Berkeley, California.

The conductor of a train was having his trouble with a German who would not pay the whole fare. In despair he at length stopped the train and ordered the man to get off. This the German gladly did, and running ahead of the engine, began to walk on the ties. The engineer whistled for him to get off the track. The German turned and shook his fist at the train. "You needn't vistle," he said, "I von't come back."—Searchlight.

TAXES 1915

OFFICE OF THE TAX COLLECTOR, COUNTY OF SANTA CLARA, CALIFORNIA

San Jose, California, October 11th, 1915.

NOTICE IS HEREBY GIVEN that the Taxes for the Year 1915 will become due and payable:

FIRST INSTALLMENT. Taxes on all personal property, a lien on or secured by land, and one-half of the taxes on all real property will be due and payable Monday, October 18th, 1915, and delinquent on Monday, December 6th, 1915, at six o'clock P. M., when 15 per cent. will be added to all of said first installment remaining unpaid.

SECOND INSTALLMENT. The remaining one-half of taxes on all real property will be due and payable January 4th, 1916, and delinquent Monday, April 24th, 1916, when 5 per cent. will be added to all taxes remaining unpaid.

Taxpayers may, if they desire to do so, pay the whole tax at one payment.

For the purpose of receiving taxes I will be in:

CAMPBELL

At the Bank of Campbell, in the Town of Campbell, on Friday, October 29th, 1915.

And at my office in the Hall of Justice Building, cor. St. James and Market Streets, San Jose, California, daily, Sundays and Legal Holidays excepted, from 9 A. M. to 5 P. M., to and including Monday, December 6th, 1915, and Monday, April 24th, 1916, at 6 o'clock P. M.

The Second Installment of Taxes is payable at my office in the Hall of Justice Bldg., San Jose.

WM. A. JANUARY,
Tax Collector of Santa Clara County.

Mass Meeting at Campbell Coffee Club

Senator F. H. Benson and Assemblyman T. M. Wright will address a mass meeting of residents of Campbell and vicinity, Friday evening, Oct. 22, on the proposed amendments to be voted upon on Oct. 26.

Everyone interested in the welfare of the state should hear these articles discussed and this is a good opportunity.

These men represent our district in the state legislature and their records are such that we should be pleased to hear them on these proposed laws.

Off For Africa

Mr. and Mrs. Geo. B. Cowles and Master Frederick left today for the East on the initial end of their long journey to Mazumbi, in Natal province, south Africa. They will not arrive at their final destination until about Christmas time, as they have to trans-ship at the Azores, Madeira and Cape Town. This entire community regrets the departure of Mr. and Mrs. Cowles, but wish them every good thing possible. Mrs. J. F. Duncan entertained at dinner Tuesday evening in their honor. Miss Ruth and Raymond will remain here this year.

OUR RIGHTS.

Our rights extend just to the place where others' rights begin and not an inch further. It is well to study the boundary lines closely. The man who "stands upon his rights" is not always a pleasant or well poised figure; he often has one foot upon his neighbor's ground.

VOTE "YES" ON NO'S. 1 AND 2

TUESDAY, October 26, is special Election day in California. The principal propositions for consideration of the electors are those bearing on and supporting the present primary election laws. One of these, No. 1, on the ballot removes our state officers from the selection and control by political parties and places their election entirely in the hands of the people and compells the candidates to run for office on their own merits rather than under the mantle of a National party. Number 2 on the ballot simply defines the short form of ballot to be used under the primary law and is a compliment of No. 1. Both these are excellent measures and deserve the support of all who believe in electing MEN to state offices rather than "boss" controlled parties.

THE big war is over and history has jotted it down. The baseball war of course. The Red Sox are the victors and world champs as a result of the five battles just fought out on the Atlantic coast. The attendance of fans and fannies at these five struggles was 143,351 netting a fund for the poor magnates and fighters of $320,361.50. The heros will get $144,899.50 of this sum. Each Bean-eater getting $3,779.98, and each Quaker $2,519.95. Duffy Lewis and Harry Hooper, both California boys helped very materially to put the "Bacon in the Beans." Californians may see these world famous players in action the last of this month in San Francisco.

THE chief opponent of the non-partisan amendments is the "De-Young-Otis-Spreckles Triumvirate" with a few lesser gangsters who have been the ringmasters in the political arena for many years past in this state. When this referennum has carried, as it certainly will, the boss whip will have been siezed by the people.

Local and Personal

W. C. T. U. will meet at the Coffee Club, Wednesday, Oct. 22.

Just received at King's, a pail of fine fresh gum drops. 20c per lb.

Are you going to place a New Range in your home this fall? Reduced prices at Whitman's Hardware.

Mrs. White and son, Charles returned Tuesday from a few day's visit at the Jewel City and other bay points.

E. W. Preston and family and his mother, Mrs. I. Preston, motored to the Jewel City yesterday for a day of sightseeing.

Mrs. A. W. King went to Oakland Wednesday for a two week's visit with her sister, Mrs. Habbutt, and incidently see the Jewel city.

Miss Alice Duncan entertained a few of the Campbell and San Jose Normal girls Friday evening at an "Old Maid's" party. They refuse to divulge any secrets so we can only imagine the doings.

The annual reception given the Freshmen of the High School will be celebrated at the High School tomorrow evening. The entertainment will take the form of a mock trial and promises much fun.

The Improvement Club will hold an important meeting next week, Thursday, Oct. 21st., at the Library. Notice the change of evening on account of the mass meeting. Everyone is urged to be present promptly at 7:30.

C. H. Whitman is attending Masonic Grand Lodge at San Francisco this week. Messrs. I. W. Snow, W. I. Merrill, R. G. Archibald, T. L. Mendel, and R. Alison went up yesterday to attend the Masonic play given at the Scottish Rite temple last evening.

Friends in Campbell have received word from J. H. Coombs that he and Mrs. Coombs are sailing from Honolulu the last of this month for San Francisco. They are returning to California to stay and will reside on a ranch near Ceres, in the San Joaquin for a time.

The Ladies' Aid of the M. E. church will hold a reception in the church parlars, this (Friday) evening for Rev. and Mrs. Lloyd, in recognition of the pastor's return to this charge. A general evening of sociability has been planned and members and friends are invited.

Mrs. D. M. Marshman will entertain the members of the Country Woman's Club on Monday afternoon at her home, 793 South Fifth St., San Jose. Miss Opal Seal will give a piano solo and Mrs. C. E. Copeland will talk informally on the Hawaiian Islands. All the members are cordially invited to be present.

Chas. Berry has been awarded first prize by the Southern Pacific for the manner in which cars of canned goods have been loaded for shipment from this station, the prize being a check for fifty dollars. The company offered two prizes in this carloading contest for each of nineteen commodities which are shipped in quantities from different stations.

Mr. and Mrs. G. S. Robson entertained the Roosevelt local of the Farmers Union at their home Monday evening. Interesting talks on rural credits were given by L. Woodward and Dr. Belknap, followed by discussions. Miss Bernice Utter gave several piano solos, Miss Cora Pugh recited and Ernest Barron sang several selections as part of the program, followed by a service of ice-cream and cake.

The home folks have recently received a most encouraging letter from Miss Maxson. Her physicians say that before many weeks she will probably be able to spend most of her time at home, making only occasional brief stays in the city for treatment. Miss Maxson appreciates the continued interest manifested by her friends in Campbell and wishes them to be assured that their long continued kindness helps the days to pass more pleasantly for her.

Entertainers Selected

The first number of the Epworth League "Course of Entertainment" occurs Friday evening, October 29.

It will be a musicale by Messrs. Kalas and Halamicek, assisted by Miss Bessie Kalas, and Miss Muriel Palmer, soloist.

These artists need no comment to attract a Campbell audience, as almost every one has had the pleasure of hearing them, and any one who has, will appreciate the opportunity of attending this concert.

Mr. Kalas is one of the musical faculty of the College of Pacific and his services are in demand for solo and orchestral work in San Jose, while Prof. Halamicek conducts a very successful School of Music here. He is the author of a book for violin instruction that is being used in several of the large schools in the East.

Miss Kalas is already a pianist of unusual skill and is continuing her work at College of Pacific.

Miss Palmer has delighted Campbell audiences many times in the past, and all will be glad to hear her again. Miss Palmer is in charge of the music in the Sunnyvale schools.

This number alone will be worth the price of a season ticket.

Methodist Church Notes

Our ladies did a very gracious thing the other day when, after their plans for a bazaar were under way, they withdrew them on learning that the ladies of the Congregational church had decided to have a bazaar this year.

Mr. Alison is leader of the League Sunday evening "Can we capture politics for God?" is the very interesting question that will be discussed. Here is a chance to give expression to your ideas of how to purify politics.

The pastor will speak Sunday morning on "The Kingdom of God", and in the evening on "The Unpardonable Sin".

The monthly meeting of the Sunday school board will be held at 8 o'clock Wednesday evening. Many matters of importance to the school will claim attention at this meeting. Let us have a large attendance of officers and teachers.

Congregational Church

"The Friendly Church just around the Corner."

The theme for Sunday morning will be "Choosing Character as a Career." Talk to the boys and girls on, "The Center Fielder."

Next Sunday is National Good Citizenship Day among the Endeavorers of all churches. The local society will have charge of the evening service at 7:30. Three will speak, giving three strong five minute addresses, on "Christian Endeavor and Good Citizenship"; "Good Citizenship from a University Man's Standpoint;" and "Good Citizenship from the Standpoint of a Young Modern Business Man." You are sure to enjoy these talks. The Pastor will close the service by reading an original story along the same lines. This story is founded on fact, and the persons of the story are all real persons and alive today. Come and help make the service a fine success.

Sunday-school with splendid enthusiasm. Classes for all ages and a cordial welcome for all. Endeavor at 6:30. Reports from the recent County Convention will be given. Our Society had a fine representation.

You are invited to worship with us at any and all of our services. And, if you have no other church home, to make your church home with us.

GEO. E. ATKINSON, Pastor.

Insure that prune crop in reliable companies. Campbell Realty Company, Agents.

HARRY C. SMITH

Freeman Duncan went to the city Saturday and is spending the week at the Fair.

Mrs. M. J. Kenfield left yesterday for San Francisco for two weeks before returning to her home in Los Angeles.

For Sale: One bed room set, one dining table, one library table, kitchen cabinet and other household articles. 55 North First St.

Mrs. G. E. Atkinson went to San Francisco yesterday to join her mother, and sister from Los Angeles who preceded her Tuesday. She may remain until Monday.

Mrs. John Scott of Portland, Oregon, surprised her old time Minnesota friends, Mr. and Mrs. W. T. Alexander yesterday for a short visit. Mr. Scott was G. N. Conductor on the same train of which Mr. Alexander was engineer.

Word has been received from Mr. and Mrs. Harold Smith of the arrival of a daughter, Grace Richmond, at their home in Foo Chow, China, Sept. 14th. Mr. and Mrs. Smith visited in Campbell last year before leaving for their home.

A POTATO WAREHOUSE.

Six Specific Requisites to Be Borne In Mind In Building One.

By R. M. DOLVE.

[North Dakota agricultural experiment station.]

The specific things to bear in mind in the construction of potato warehouses are temperature, ventilation, soil drainage, convenience, durability and cost.

Temperature.—The ideal temperature in a potato warehouse is between 33 and 35 degrees Fahrenheit. Although provision should be made for heating during extreme weather, the house should be so constructed that the proper temperature can be maintained during cold weather without the use of artificial heat. The objection to artificial heat is that it is impossible to maintain an even temperature throughout the entire house. The temperature of potatoes near the stove will invariably be too high while potatoes may be freezing in remote parts of the house.

Ventilation.—Provision must be made for ventilation so as to maintain the proper temperature, the requisite pureness of air and a desirable dryness of atmosphere. The scheme of ventilation should be so arranged that it is under easy control of the caretaker. To this end the walls of the house must be as good nonconductors of heat as is consistent with economy in construction. All doors should be double and as tight as possible.

The temperature in a warehouse will gradually rise toward spring, but a properly constructed one may be kept at the desired temperature for a long time by ventilating at night and shutting the house as tightly as possible during the day time.

Soil Drainage.—When a potato warehouse of the basement type is to be constructed the height of the water table in the ground during seasons when potatoes may be stored should be investigated. If there is danger of water and there is no means of removing it, it is better to place the basement floor above the danger line and to grade up around the house until it is buried to the desired depth.

Durability and Cost.—In well drained soils that do not cave readily, quite satisfactory basement warehouses have been constructed, at small cost, that consist merely of a roofed over excavation with walls having a slope of 1 to 1. In most localities, however, this is not practical, and where potato growing is taken up as a permanent business a more durable warehouse should be constructed. To insure durability all underground construction should be of stone, brick or concrete, and in most instances concrete will be found cheapest and best suited for basements. Care must be taken to insure that all planks, joists and supports of driving floors have ample strength to support the heavy loads as well as the dead weight of potatoes which may be stored on the floor. Roughly, the cost of a large first class potato warehouse will amount to about 10 cents per bushel of its storage capacity. That is, a good 10,000 bushel warehouse, for example, will cost about $1,000 so that 10 cents per bushel on the first crop stored pays for the warehouse.

Notice to Creditors

Estate of William H. Hinde, Deceased.

Notice is hereby given by the undersigned executrix of the last Will and Testament of William H. Hinde, deceased, to the creditors of and all persons having claims against the said deceased, to file them, with the necessary vouchers, in the office of the Clerk of Superior Court of Santa Clara County, California, or to exhibit the same, with the necessary vouchers, within ten months after the first publication of this Notice, to the said executrix at the office of L. D. Bohnett, 313-314 Bank of San Jose Building, in the City of San Jose, County of Santa Clara, State of California, where all business connected with said estate will be transacted.

San Jose, this 27th day of September, A. D. 1915.

Jane R. Hinde,
Executrix of the last Will and Testament of William H. Hinde, Deceased.
L. D. Bohnett,
Attorney for said Executrix.

Catarrh Cannot Be Cured

with LOCAL APPLICATIONS, as they cannot reach the seat of the disease. Catarrh is a blood or constitutional disease, and in order to cure it you must take internal remedies. Hall's Catarrh Cure is taken internally, and acts directly upon the blood and mucous surface. Hall's Catarrh Cure is not a quack medicine. It was prescribed by one of the best physicians in this country for years and is a regular prescription. It is composed of the best tonics known, combined with the best blood purifiers, acting directly on the mucous surfaces. The perfect combination of the two ingredients is what produces such wonderful results in curing catarrh. Send for testimonials, free.
